ABOUT ME

As a Trainee, I will dedicate myself to the needs of crew and smooth running of a shoot by being attentive, proactive and present. This year I will be graduating from Screen and Film School having spent three years developing and advancing my knowledge in both cinematography and the film industry as a whole. Having frequently worked on varying projects alongside my studies, I feel keen and ready to start working within the industry in an entry level position.

GDPR Statement: This CV may be kept on file and distributed for employment purposes.
